

CRESCENDO

Inspire unity and cooperation by transforming your team into a string orchestra in less than one hour.

How it works

Crescendo's unique approach generates amazing results even when participants have no previous musical experience. Instructors assign team members one of two classical string instruments: the violin or the viola. Then, they quickly teach them the basics of playing and learning their part in a custom made composition. At the end, with the accompaniment of a bespoke backing track, the two sections make beautiful music together.

Learning outcomes

Few individuals can learn to play classical music in under an hour, but a team of people working in synergy can. In today's fast paced, ever changing business climate it is vital that team members are able to quickly adapt their skills to maintain the effectiveness of the team to both act and react with optimal speed and efficiency. Team work and efficient communication skills is paramount and Crescendo teaches all these skills and more in an experiential learning scenario for lasting results.
